Waterproofing Systems

AquaArm Proof WP-P

(Formerly known as MYK PROOF WPC SUPER)

Integral Waterproof Powder

TECHNICAL DATA SHEET

Product Description

AquaArm Proof WP-P Integral waterproofing powder is composed of waterproofing additives in powder form, used for waterproofing of concrete and cement plasters.

Uses

- Roof slabs
- · Water tanks and screeds
- Internal/External plastering,

Features and Benefits

- Chloride-free hence no chance of corrosion of reinforcement bars.
- Effective pore filler helps to fill capillaries and pores to prevent water seepage.
- Makes the mix cohesive and denser, reduced permeability.
- Most economical water proofing additive, reduces water absorption.
- Compatible with all types & grades of cements.

Application Methodology

Mixing & Application:

Add AquaArm Proof WP-P to the dry mix of cement sand and mix evenly until a homogeneous mix is obtained. Add the measured quantity of potable water as per decided W/C (water cement) ratio and mix to a homogeneous &uniform consistency concrete / mortar. Place the mixed concrete / mortar into shuttering provided. Cure the concrete / mortar surface as per regular practices of water curing.
